

A Bixby Studio Tutorial

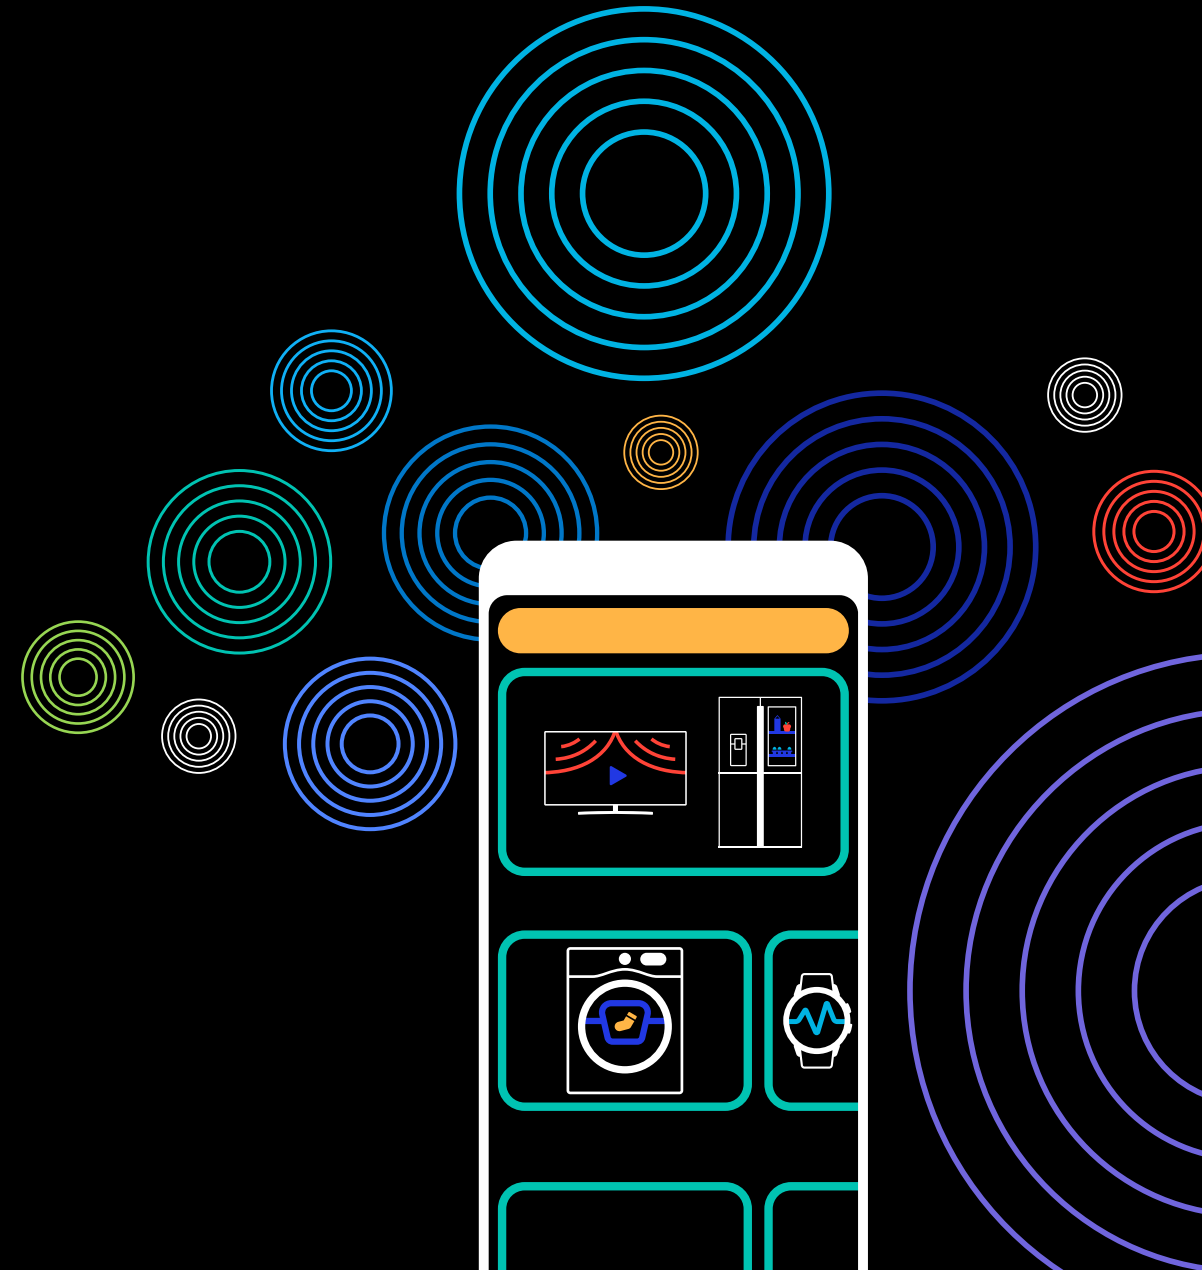

Library Capsule - Geo

Jonathan Pan

Technical Evangelist

Viv Labs / Samsung Bixby

Twitter: [@JohnWithoutTheH](https://twitter.com/JohnWithoutTheH)

Prerequisites

- Decent understanding of modeling and the Bixby flow
 - Hello World Tutorial
 - Result View Tutorial
 - Input View Tutorial

What is Geo?

- Geo is a library capsule in Bixby Studio
- Geo allows us to use training for location related voice inputs and modeling.
 - Example: "60 S Market Street"
 - Example: "Statue of Liberty"
 - Both examples (and many more) are covered with just `geo.SearchTerm` training

Capsule.bxb

- Import viv.geo
 - Alias
 - Version
- Permissions
 - Used to get the User's current location

Thank you
