Walkie-Talkie Capsule

Talk to Bixby as if it's is on the other side of a walkie-talkie

You should say some kind of confirmation at the end of your statement

A couple examples are "over" and "out"

If you don't say some kind of confirmation at the end, this capsule will remind you to do so.

I AM NOT A WALKIE-TALKIE EXPERT! This is for dialog demonstration purposes.

If any walkie-talkie practices have been violated, leave a comment below :P

Useful Resources for Dialog

https://bixbydevelopers.com/dev/docs/dev-guide/developers/refining-dialog.intro-dialog

Main dialog documentation

https://bixbydevelopers.com/dev/docs/dev-guide/design-guides/writing

Writing style and tone guide

https://bixbydevelopers.com/dev/docs/reference/ref-topics/el-ref

Expression language syntax. Search "Expression Language", 4th ish result

End Code for Walkie-Talkie

https://github.com/jonmpan/bixby-walkie-talkie

Thank you
